EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gary Edwards on May 27, 2004.

The application has been amended as follows:

In claim 1, line 10, after "system" remove "." and add "and, wherein glycol is used as the absorbing agent."

Claim 2 is cancelled.

In claim 3, line 3, replace "2" with "1".

In claim 10, line 11, after "and" insert ", wherein glycol is used as an absorbing agent."

In claim 15, line 11, after "unit" remove "." and add "and, wherein glycol is used as the water absorbent material."

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the instant claims are allowable over the prior art of record, because the prior art is silent to a method of operating a fuel cell system in which water in the exhaust gas stream is recovered by means of absorption by a glycol absorbing agent.

The prior art, such as Dubose U.S. Patent 6,436,562, teaches a fuel cell stream conditioning system comprising a sorbent in an enthalpy wheel to absorb unwanted containments in exhaust streams of fuel cells. The reference is silent to employing glycol to remove water in the exhaust gas stream. Therefore, the instant claims are patentably distinct from Dubose.

CONCLUSIONS

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
